

Product: **H.264 DVR**, Price \$450

4 Camera and DVR Surveillance Kit is a high quality kit set contains everything you need to setup a CCTV security system at your home or office, plus it includes 4 Outdoor IP Cameras, H.264, 500GB and Supports Mobile Phone Browsing.

## **DVR Surveillance Kit**

This unbelievable and extremely versatile security DVR and camera set is your specialized and high performance audio and video solution for maximum surveillance. Set this DVR up at home, office, store, internet bar and any other place that you are worried about. Connect this DVR that comes with 500GB HDD pre-installed to your monitor and watch the surveillance video. Plus it comes with 4 cameras so you can choose any camera or have 4 of them on screen simultaneously. You can program the DVR unit to record with motion detection and it even

## Product: H.264 DVR, Price \$450

comes with a full feature remote control. A smart feature to ensure you have a constant watch over your property from wherever you are is mobile phone browsing, which lets you watch the real time footage of what the cameras are seeing directly from your phone. This DVR surveillance system uses H.264 video compression, which results in quality video recording that requires less storage space; it is the most commonly used format for the recording, compression, and distribution of high definition video.

## Outdoor Security Cameras

The surveillance cameras that come with the DVR are capable of capturing a high quality image and wide viewing angle. These weatherproof cameras are manufactured to stand up against anything Mother Nature can throw at it as they are made from aircraft grade aluminum and designed with a sliding hood. Each 1/4 inch CMOS image sensor security camera has been designed with a light sensor that will automatically turn on the 36 infrared (IR) night vision LED's when it turns to night or it becomes very dark. Due to having 36 infrared night vision LED's, the cameras are capable of capturing crisp images during the day or night with a IR range of up to 10 meters. Twenty-four hour protection for your home, office or factory is something you can't substitute and this DVR and four camera security system is an effective way to ensure your property is properly secured.

Low price, high quality, and immediate shipment, this DVR system is great for security product retail stores, small business or high-end home security system installers, or general security and surveillance resellers. No matter the customer, this Surveillance DVR and outdoor camera kit has everything you need for your personal/business security. Don't delay, immediately make your home and business more secure with a system designed for both the average guy as well as the expert to use. Brought to you by the leaders in wholesale electronics and DVR Systems.
