

4 Outdoor Camera Kit, Price \$465

Complete surveillance kit with 4 weatherproof security cameras, a 4 channel DVR with SATA slot and all required cables. Containing everything you need to easily setup your very own CCTV security system.

The versatile and easy to use SecureView camera set is your professional solution for high performance video surveillance. Containing everything you need to start your own security network, this DVR is perfect for home use, in stores, internet bars, small offices, and any other place that needs a security boost. Hook the DVR up to your own monitor and watch the 4 streams simultaneously or one by one. Video recording can be done by plugging in a SATA Hard Drive up to 2TB and you'll even be able the remotely access the video stream by logging in on your phone, tablet, PC or laptop.

All 4 security cameras are built out of high grade aluminum and come with a sliding hood, protecting them from harsh outdoor conditions. In low light conditions, the 24 IR LEDs on each camera will switch on automatically to provide a clear night vision image and this up to 10 meters far. This allows the camera to record crisp images during day and night, giving your home or business the protection it needs, 24 hours a day.

Offered at an extremely competitive price, the “SecureView” is now in stock and ready for immediate shipping. Brought to you by the leader in wholesale security camera sets.
